

Certified Public Private Partnership Professional (CP³P) Certification Training (Foundation Level) January 22 – 26, 2018

Course Description

The CP3P is an innovation of the World Bank and other Multilateral Development Banks, and part funded by the Public-Private Infrastructure Advisory Facility (PIIAF). It was developed to foster a common understanding amongst PPP Practitioners, and aims to promote consistency of processes used in PPPs and the PPP lifecycle.

It is based on the PPP Guide, written by a team of authors who are outstanding PPP practitioners from around the world and it brings together best practices from many countries and aims to bring a consistency of processes used in PPPs. The CP3P status is the symbolic output of a distinctive examination-based Public-Private Partnership (PPP) certification program developed and managed by APMG International, U.K. There are three levels within the certification program. This training is for the Foundation level which is a prerequisite for the other levels. It tests the capability of the candidate to act as an informed member of any PPP project team.
